RE: GENETICALLY ENGINEERED FOOD

Dear Commissioner Henney:

I am writing to ask you to please give us, the public the choice as to whether we buy GE foods! Please label these foods – which is the very least the FDA can do – We have a right to see this label and make that choice. I don't want to have it made for me by my not knowing what I'm buying!

That is my number one concern – I want to also ask for mandatory pre-market safety testing on all genetically engineered foods also.

Finally I will say again that we all need to have the choice of whether we eat genetically engineered foods, Commissioner – that is number one! We must have these foods labeled. I have the right to know what I'm eating, please do not take that away from me – let me make my choice!

Regards,

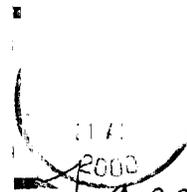

Alice Everhart-Page
