RE: Notification of Nutritional Support Statements

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of IP-6, a dietary supplement. Source Naturals® is the manufacturer of IP-6.

Statements being made in the labeling of IP-6:

- (1) IP-6 (inositol hexaphosphate) is a component of dietary fiber, and is believed by many researchers to be responsible for fiber's health benefits. IP-6 has been shown to help control the growth of breast, colon, and prostate cells¹ by protecting DNA and cells from free radical damage, and by supporting the immune system, according to *in vitro* and animal research. Only pure IP-6 has consistently demonstrated positive research results.
- (2)¹ Protects breast, colon and prostate cells.

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Source Naturals, Inc.
