<b>Date/Time</b>	2001-01-08 22:26:58
<b>Organization</b>	Dr. karl cress
<b>Category</b>	Individual
<b>Comments for FDA General</b>	
<b>Questions</b>	
<b>5. General Comments</b>	Altoids candy is imported from England by PhilipMorris. It includes gelatin, a beef product. Is this safe given the mad cow epidemic? Shouldn't there be a disclosure on the label that geletin is an animal product from a country with diseased animals?
