RE: Notification of Nutritional Support Statements

To whom it may concern:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Vanadyl Sulfate, a dietary supplement. Source Naturals® is the manufacturer of Vanadyl Sulfate.

Statements being made in the labeling of Vanadyl Sulfate

- 1) Athletes have used vanadyl sulfate extensively as part of their daily supplementation program.
- 2) It is a form of the trace element vanadium, which is important for normal cell function and development.
- 3) Vanadyl sulfate has been shown to help maintain blood sugar levels already in the normal range by its insulin-like effects in the liver, skeletal muscle, and adipose tissue, by activating glucose transport at the cellular level.
- 4) Source Naturals Vanadyl Sulfate combines these important functions to help maintain healthy blood sugar levels when used as part of your diet.

To the best of my knowledge and belief, and based upon information available at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals® possesses substantiation that the statements are truthful and not misleading.

  
Ira L. Goldberg  
President, Source Naturals®
