Re: Dietary Supplement Statement of Support Notification

To Whom It May Concern:

Fitness Labs Nutrition Corporation, P.O. Box 3896 Torrance, CA 90510-3896, who is the distributor of the following dietary supplement product, intends to make the following statement(s) of support:

“Perfect for children and teenagers since protein is critical during their developing years.*”

“Each serving includes over 18 grams of fast digesting, premium quality, cross flow and cold-filtered whey protein concentrate combined with slower digesting caseinate (milk protein) and milk protein isolate (whey and caseinate). This highly digestible protein combination is ideal for hungry muscles which rely upon a steady supply of high quality protein. It stays with you for hours, but won't leave you with a heavy or full feeling.*”

“Studies point to the key role glutamine plays in the immune system. Each serving contains 1 gram of L-glutamine (free form) plus over 2 grams of naturally occurring glutamine.*”

“Just enough complex carbohydrates are added from low and medium glycemic index carbohydrates to help replenish body fuel stores and keep your energy levels up.*”

“Each serving provides a constant supply of micronutrients that are vital for many cellular processes. To support bone health, we include optimal ratios of calcium, magnesium and boron.*”

“Enjoy NutraFit™ for a leaner, healthier body!*”

These claims are being made for a product named Fitness Labs® NutraFit™. This submission is being made in compliance with 21 CFR §101.93.
