In the burdock vegetal complex, hop, thyme, achillea, juazeiro, lemon and chlorophyll, Tricofort has sought active ingredients that, when combined with polysorbate 80, sulfur and climbazole, have a synergetic effect in fighting and preventing excessive desquamation of the scalp, and moreover act directly on the agent that causes dandruff. Directions for Use: Apply the product daily, gently rubbing it in with the tips of your fingers until it is well spread throughout your hair. It should remain in the scalp.

We recommend that you use this lotion in conjunction with Tricofort Anti-Dandruff Shampoo and Tricofort Hair Conditioner for specific care with ginger and nettle extracts.
