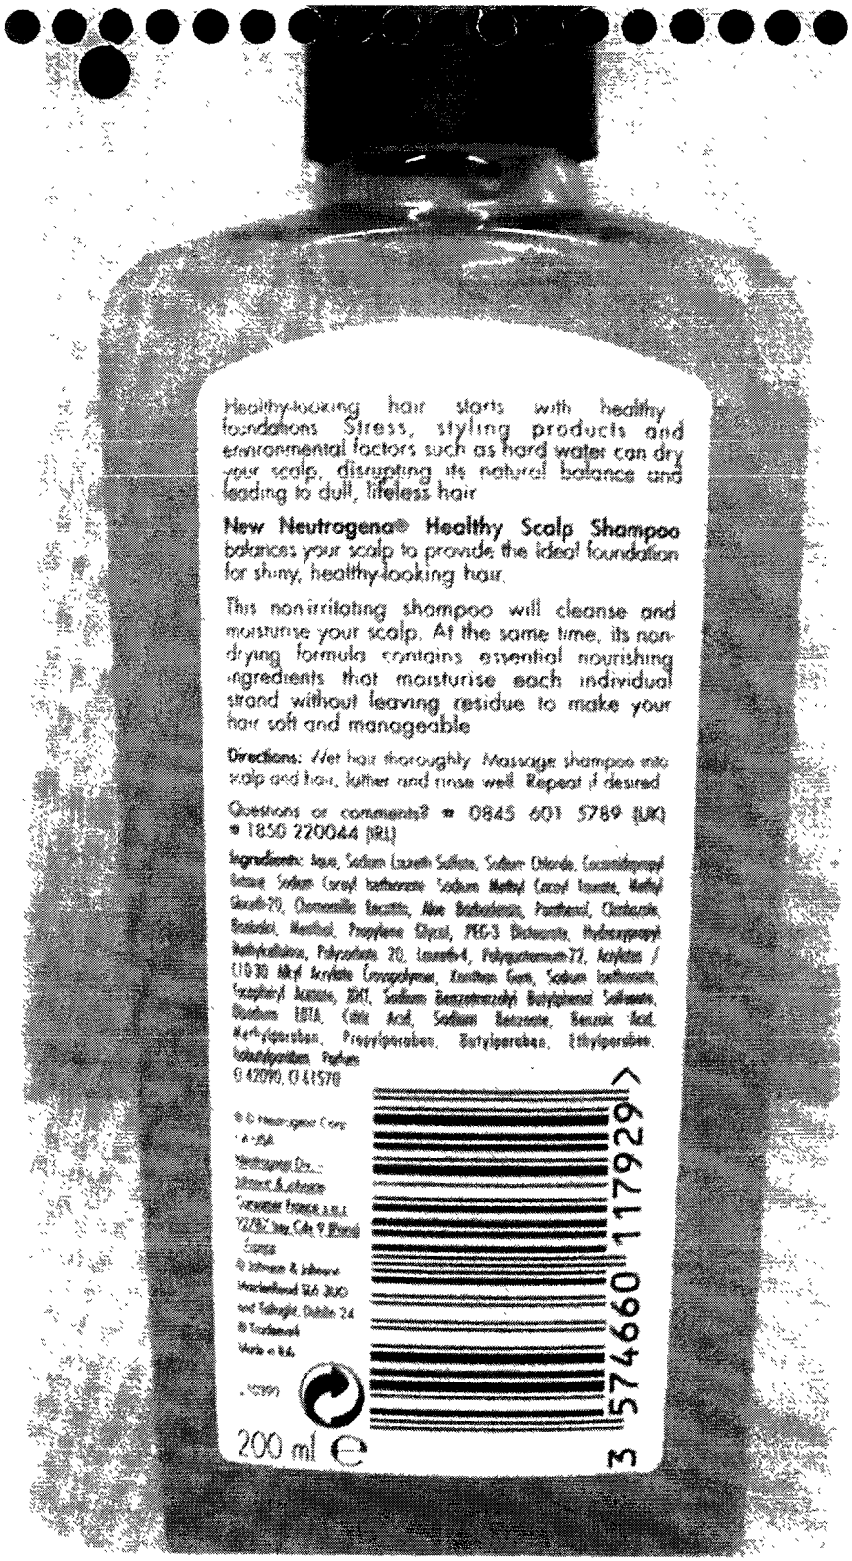
SHAMPOO



Healthy-looking hair starts with healthy foundations. Stress, styling products and environmental factors such as hard water can dry your scalp, disrupting its natural balance and leading to dull, lifeless hair.
New Neutrogena® Healthy Scalp Shampoo balances your scalp to provide the ideal foundation for shiny, healthy-looking hair.
This non-irritating shampoo will cleanse and moisturise your scalp. At the same time, its non-drying formula contains essential nourishing ingredients that moisturise each individual strand without leaving residue to make your hair soft and manageable.
Directions: Wet hair thoroughly. Massage shampoo into scalp and hair, lather and rinse well. Repeat if desired.
