TITLE 21--FOOD AND DRUGS

CHAPTER I--FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH AND  
SERVICES (CONTINUED)

PART 172--FOOD ADDITIVES PERMITTED FOR DIRECT ADDITION TO FOOD FOR

Subpart C--Coatings, Films and Related Substances

Sec. 172.225 Methyl and ethyl esters of fatty acids produced from

Methyl esters and ethyl esters of fatty acids produced from  
fats and oils may be safely used in food, subject to the following  
prescribed conditions:

(a) The additive consists of a mixture of either methyl or ethyl  
esters of fatty acids produced from edible fats and oils and meets the  
following specifications:

(1) Not less than 90 percent methyl or ethyl esters of fatty acids

(2) Not more than 1.5 percent unsaponifiable matter.

(b) The additive is used or intended for use at the level not to  
exceed 3 percent by weight in an aqueous emulsion in dehydrating raisins  
to produce raisins, whereby the residue of the additive on the raisins  
does not exceed 200 parts per million.
