

SECTION SEVEN

SECTION SEVEN

SUMMARY

As referenced in the animal and human clinical studies provided in Section Six, and analytical procedures in Section Three, CVT-E002 is a well-characterized dietary ingredient that has been available in the Canadian marketplace and used to promote good health for some time.

Based on the long history of use in the marketplace and clinical human and animal safety studies, the manufacturer of CVT-E002 considered this documentation sufficient to provide a reasonable basis for CVT-E002 to be considered safe for use.
