## Material Safety Data Sheet DECURSINOL

### 1. Chemical Identification

Trade Name: Decursinol  
Product Name: Angelica root extract powder  
General or Generic ID: Botanical extract

### 2. Composition

Ingredient	CAS Number	%(w/w)
Angelica gigas Nakai root extract	8105-64-3	50
Microcrystalline cellulose	9004-34-6	50

### 3. Hazards Identification

#### Potential Health Effects

##### Eye

Dust outside of vacuum shields could cause eye irritation. Symptoms may include stinging, tearing, redness.

##### Skin

Washing dust from skin with water will eliminate skin irritation.

##### Swallowing

Swallowing this material is not harmful.

##### Inhalation

This material is a powder so may produce dust in some cases. Breathing small amounts of this material is not harmful.

##### Symptoms of Exposure

No data

#### Target Organ Effects

No data

#### Cancer Information

The International Agency for Research on Cancer, the National Toxicology Program, and the Occupational Safety and Health Administration do not list this material as a carcinogen.

#### Other Health Effects

This material can form dust which may cause skin irritation. Symptoms may include coughing or running nose. Although the dust may cause respiratory tract irritation, dust does not form scar tissue or affect the structure of air spaces in the lungs.

#### Primary Routes of Entry

Inhalation, skin contact, eye contact

### 4. First-Aid Measures

#### Eyes

If symptoms develop, immediately remove the person from the dust.  
Flush eyes gently with fresh water without rubbing for at least 10 minutes.  
Also, seek medical attention.

#### Skin

If symptoms like an allergic reaction develop, immediately wash the skin with fresh, cold water. Also, seek medical attention.
