Section 403(r) (6) Notification

Dear Sir or Madam:

In accordance with the requirement of section 403(r) (6) of the Federal Food, Drug and Cosmetic Act, **Leiner Health Products** notifies the FDA that it has begun using the following phrase and statement:

Promotes Stronger Bones than Calcium Alone

Studies have shown that taking Phosphorus along with Calcium promotes stronger bones than calcium alone in healthy people. Phosphorus assists the body in retaining Calcium, while Vitamin D helps increase the absorption of both Calcium and Phosphorus. Regular exercise and a healthful diet with adequate calcium are essential in achieving peak bone mass in teenagers and young adults and maintaining bone health during adulthood. Individuals who do not store enough calcium throughout their lives have an increased risk for developing osteoporosis. While adequate calcium intake is important, daily intakes above 2000 mg are not likely to provide any additional benefit.

on the following product:

Your Life® Calcium, Phosphorus with Vitamin D

Very truly yours,

Leiner Health Products
