Re: Dietary Supplement Statement of Support Notification

To Whom It May Concern:

McLind Corporation, P.O. Box 3669 Torrance, CA 90510-3669, who is the distributor of the following dietary supplement product, intends to make the following statement(s) of support:

“Soy Protein Isolate is the perfect addition to your cardiovascular and general health program.\*”

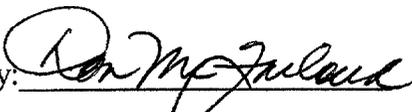

“Whey Protein has the highest biological value of any protein source. That means more of the protein is absorbed and retained by your body than any other protein! We use a whey concentrate that is specially filtered and cool processed to retain glycomacropetides and other special protein fractions that help support the immune system. Plus, you get essential branched-chain amino acids which may help prevent muscle breakdown.\*”

“We include Hydrolyzed Whey (whey peptides) which is quickly absorbed by the body and ready for immediate use by your muscles.\*”

“Milk Protein (Casein) is the predominant protein source from milk. It has a high glutamine content, and it passes through the intestine at a slower rate allowing for maximal peptide and amino acid absorption. It helps you feel satisfied longer, too!\*”

These claims are being made for a product named Lindberg® All-Natural Protein Blend. This submission is being made in compliance with 21 CFR §101.93.

The undersigned is an authorized representative of the McLind Corporation and certifies that the information contained in this notice is complete and accurate, and that McLind Corporation has substantiation that the above statement(s) is (are) truthful and not misleading.
