“These patented, amino acid bound minerals are more bioavailable than non-chelated forms. The magnesium chelate is patented for its ability, when combined with meals, to facilitate rehydration and endurance for those under physiological stress and to support sustained energy levels and muscle growth in humans.\*

These claims are being made for a product named Lindberg® Varsity® Pack 1. This submission is being made in compliance with 21 CFR §101.93.

The undersigned is an authorized representative of the McLind Corporation and certifies that the information contained in this notice is complete and accurate, and that McLind Corporation has substantiation that the above statement(s) is (are) truthful and not misleading.
