RE: Notification of Nutritional Support Statements

To whom it may concern:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Vegetarian Pancreatin, a dietary supplement. Source Naturals® is the manufacturer of Vegetarian Pancreatin.

Statements being made in the labeling of Vegetarian Pancreatin

- 1) Source Naturals Vegetarian Pancreatin is a broad-spectrum plant-based enzyme blend.
- 2) It includes protease for protein breakdown, amylase for starch breakdown, and lipase for fat breakdown.
- 3) Unlike pancreatin derived from animal sources, vegetarian pancreatin works at a wide range of pH levels to break down food in the acidic stomach as well as the more neutral intestines.
- 4) Plus, vegetarian pancreatin can help digest wheat gluten, which may increase stomach and intestinal comfort.
- 5) Supplementing the body's digestive process with enzymes is of great value in today's fast-paced society.

To the best of my knowledge and belief, and based upon information available at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals® possesses substantiation that the statements are truthful and not misleading.
