**Re: SECTION 403(r)(6) NOTIFICATION**

Dear Sir or Madam:

In accordance with the requirements of section 403(r)(6) of the Federal Food, Drug and Cosmetic Act, Melaleuca, Inc., notifies FDA that it has begun using the following statement:

- Heart-smart blend of phytosterols and omega-3 fatty acids, which help maintain a healthy heart.
- *Phytomega* combines two natural ingredients—phytosterols and omega-3 fatty acids—in one heart-smart dietary supplement for enhanced cardiovascular health.
- EPA and DHA are long-chain omega-3 fatty acids that research shows help maintain healthy triglyceride levels in your body. (Studies have also positively linked omega-3 fatty acids to improved mental health, joint health, eyesight, and more.) Plus, as an added benefit, *Phytomega's* omega-3 fatty acids enhance the solubility of its phytosterols—giving you a double dose of heart protection in one powerful supplement.

This statement contains the statutory disclaimer. The name of the dietary supplement is Phytomega®, and the relevant dietary ingredients are fish oils and phytosterol esters.

I certify that the foregoing is complete and accurate, and that Melaleuca, Inc., has substantiation that the statement is truthful and not misleading.

Very truly yours,

Melaleuca, Inc.
