Section 403(r) (6) Notification

Dear Sir or Madam:

In accordance with the requirement of section 403(r) (6) of the Federal Food, Drug and Cosmetic Act, **Leiner Health Products** notifies the FDA that it has begun using the following phrase and statement:

Maximum Support for Long-Term Joint Health

Glucosamine and MSM is a unique supplement combination that helps support maximum flexibility, range of motion, joint lubrication and maintenance for healthy cartilage and connective tissue.

Glucosamine is a basic building block for cartilage, synovial fluid and other connective tissues, which are needed for healthy structure integrity and function of joints and optimum mobility.

MSM (Methylsulfonylmethane) is a bioavailable sulfur. Sulfur is a necessary component that works in conjunction with Glucosamine to provide the building blocks of collagen, an important component of healthy joints and connective tissue.

Noticeable improvement in flexibility and range of motion should be expected after taking this supplement as directed for about 6 weeks.

On the following products:

Your Life® Glucosamine HCl 750 mg & MSM 750 mg

Very truly yours,
Leiner Health Products
