As per section 6 of the Dietary Supplement Health and Education Act of 1994, I respectfully submit the following information:

DW Performance Science
2035 Landings Drive
Mountain View, CA 94043

Products and claims to be filed:

Anabolic AM™

Pharmaceutical Grade- Maximum Potency

Arginine Alpha Ketoglutarate (AAKG) is a nitric oxide vasodilator stimulator used by top athletes and bodybuilders to amplify their training capacity. AAKG is used as a fuel for the body's production of nitric oxide, an important molecule that modulates the body's blood supply leading to a greater "pump" effect during workout. The MBS4 System provides the highest quality, pharmaceutical grade AAKG available on the market, equal or superior to any other form on the market. Paired with Nitrozyte™, also included in the MBS4 System, this combination will dramatically increase the body's potential to produce and utilize nitric oxide for maximum results in the shortest time possible.*

I hereby certify that the information contained in the above notices is complete and accurate, and that The Daily Wellness Company has substantiation that these statements are truthful and not misleading.

Sincerely,

Aileen Trant, Ph.D.
Vice President, Research & Development

975 0162 LET 17067

Recommended Use: For maximum results, refer to the chart below for daily consumption based on your weight.

Men	
Up to 175 lbs. - 5 capsules daily	Take 3 capsules first thing in the morning on empty stomach. Take another 2 capsules 1/2 hour prior to lunch.
