INSTRUCTIONS: The Activity Inventory is organized into 3 activity Objectives (Daily Living, Social Interaction, and Recreation), 50 activity Goals, and 457 activity Tasks. If the subject rates the Goal as "not important", move on to the next Goal, otherwise the subject is asked to rate the difficulty of the Goal on a 5-point scale ranging from "not difficult" to "impossible to do without someone else's help". If the subject responds "not difficult", move on to the next Goal, otherwise the patient is asked to rate the difficulty of Tasks that are subsidiary to the Goal on the same 5-point difficulty scale.

A: DAILY LIVING

Instructions: The Daily Living Objective has 18 Goals and 214 Tasks describing everyday activities. Subjects must rank the importance of each Goal. If the Goal has at least some importance, they then will be asked to rank the difficulty of that Goal (or they can say it is "Not applicable", even if they rated it as important). They will be asked to rate the difficulty of Tasks under each Goal that is rated as being at least "Slightly difficult". They also are permitted to respond that a Task is "Not applicable" to them.
