TYPE ESTABLISHMENT INSPECTED

Shell Egg Producer

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED:

OBSERVATION 1

Potential harborages for pests in and outside your poultry house have not been eliminated by removing debris and vegetation outside the poultry house.

Specifically, during the inspection of your facility on 11/17/10, the following conditions were observed:

- The rear door of House (b) (4) was observed with gaps between the bottom of the door frame.
- Wooden forms were observed stored near House (b) (4)
- Steel I-beams, pipes, various farming equipment, and debris were observed around the perimeter of House (b) (4)
- A rotted door frame with access holes entering the former packing area was observed on House (b) (4)

OBSERVATION 2

The presence of flies is not monitored by appropriate monitoring methods.

Specifically, your firm does not monitor for flies as required by the regulation.

OBSERVATION 3

All required records do not include your name and the location of your farm.

Specifically, cooler monitoring and rodent monitoring records do not include your name and location of your farm.
