This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM I OBSERVED:

OBSERVATION 1

You did not maintain records documenting compliance with environmental and egg sampling procedures.

Specifically, your firm does not have any records documenting that a minimum of 1,000 intact eggs representative of a day's production, from each SE positive house, were collected and delivered for testing. You do not have any documentation that states that eggs from your layer houses were actually sampled. (b) (4) Sample Submission Forms that you provided me do not list the quantity of the samples. The (b) (4) Bill of Lading that you provided me with does not list the number of eggs shipped, other than 1 pallet weighing 650 lbs.
