This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED:

OBSERVATION 1

Potential harborage for pests in and outside your poultry house have not been eliminated by removing debris within a poultry house and removing debris and vegetation outside the poultry house.

Specifically,

Rainer Ranch, House # 1 - we observed birds (swallows) flying around and into a hole in the upper exterior wall at the end of the back of the house. At least 2 birds were observed entering and exiting this hole.

Glacier Ranch, House # 1 and 2 - We observed birds (swallows) flying around the exterior of houses. These birds were observed entering/ exiting the vent intake soffit overhangs of both houses. While walking along the house exteriors we observed nests built on soffit support boards and in the corners of the these vent soffits.
