Tylosin Medicated Feed – Swine Atrophic Rhinitis

Type C Medicated Feed

CAUTION: Federal law restricts medicated feed containing this veterinary feed directive (VFD) drug to use by or on the order of a licensed veterinarian.

INDICATION
For reduction in severity of effects of atrophic rhinitis

ACTIVE DRUG INGREDIENT
Tylosin phosphate \( ^{a} \) ................................................................. 100 g/ton

GUARANTEED ANALYSIS
Crude Protein, not less than......................................................... \( \% \)
Lysine, not less than................................................................. \( \% \)
Crude Fat, not less than........................................................... \( \% \)
Crude Fiber, not more than........................................................ \( \% \)
Calcium, not less than............................................................. \( \% \)
Calcium, not more than.......................................................... \( \% \)
Phosphorus, not less than......................................................... \( \% \)
Salt\(^{1}\), not less than............................................................... \( \% \)
Salt\(^{1}\), not more than.......................................................... \( \% \)
Sodium\(^{2}\), not more than....................................................... \( \% \)
Sodium\(^{2}\), not less than.......................................................... \( \% \)
Selenium, not less than......................................................... ppm
Zinc, not less than................................................................. ppm

\(^{1}\) If added.
\(^{2}\) Shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee.

INGREDIENTS
Each ingredient must be named in accordance with the names and definitions adopted by the Association of American Feed Control Officials.

FEEDING DIRECTIONS
Feed 100 g of tylosin per ton of complete feed. Feed continuously as the sole ration.
