### METHADONE HYDROCHLORIDE
- **Tablet, Effervescent; Oral**
  - Westadone
    - SANDOZ
      - 5MG
      - 10MG
      - 40MG

### METHAMPHETAMINE HYDROCHLORIDE
- **Tablet; Oral**
  - Methampex
    - TEVA
      - 10MG

- **Tablet, Hydrochloride**
  - Able
    - 5MG
  - Rexar
    - 5MG
    - 10MG
  - TEVA
    - 5MG

- **Tablet, Extended Release; Oral**
  - Desoxyx
    - Recordati Rare
      - 5MG
      - 10MG
      - 15MG

### METHANTHILINE BROMIDE
- **Tablet; Oral**
  - Banthine
    - Shire
      - 50MG

### METHARBITAL
- **Tablet; Oral**
  - Gemonil
    - Abbvie
      - 100MG

### METHAZOLAMIDE
- **Tablet; Oral**
  - Methazolamide
    - Applied Anal
      - 25MG
    - SANDOZ
      - 25MG
      - 50MG
    - Neptazane
      - + Lederle
        - 25MG **
      - +
        - 50MG **

### METHDILAZINE
- **Tablet, Chewable; Oral**
  - Tacaryl
    - Westwood Squibb
      - 3.6MG

### METHDILAZINE HYDROCHLORIDE
- **Syrup; Oral**
  - Methdilazine Hydrochloride
    - Alpharma US Pharms
      - 4MG/5ML
    - Tacaryl
      - Westwood Squibb
      - 4MG/5ML
  - TABLET; ORAL
    - Tacaryl
      - Westwood Squibb
      - 8MG

### METHICILLIN SODIUM
- **Injectable; Injection**
  - Stapcillin
    - Apothecon
      - EQ 900MG BASE/VIAL
      - EQ 900MG BASE/VIAL
      - EQ 3.6GM BASE/VIAL
      - EQ 3.6GM BASE/VIAL

## Pentobarbital Sodium
### Capsule; Oral
- SODIUM PENTOBARBITAL
  - PUREPAC PHARM: 100MG
  - VALEANT PHARM INTL: 100MG
  - WATSON LABS: 100MG
  - WYETH AYERST: 100MG

### Injectable; Injection
- PENTOBARBITAL SODIUM
  - ELKINS SINN: 50MG/ML
  - SODIUM PENTOBARBITAL
  - WYETH AYERST: 50MG/ML

### Suppository; Rectal
- NEMBUTAL
  - OAK PHARMS: 30MG, 60MG, 120MG, 200MG

### Tablet; Oral
- PENTOBARBITAL SODIUM
  - VITARINE: 100MG
- SODIUM PENTOBARBITAL
  - NEXGEN PHARMA INC: 100MG

## Pentolinium Tartrate
### Injectable; Injection
- ANSOLYSEN
  - WYETH AYERST: 10MG/ML

## Pentoxifylline
### Tablet, Extended Release; Oral
- PENTOXIFYLLINE
  - ACTAVIS ELIZABETH: 400MG
  - HERITAGE PHARMS INC: 400MG
  - IMPAX LABS: 400MG
  - PLIVA: 400MG
  - TEVA: 400MG, 200MG, 120MG
  - WATSON LABS: 400MG

### Trental
- + US PHARM HOLDINGS: 400MG **

## Perfluoron
### Liquid; Oral
- ALLIANCE PHARM: 100%

## Perfluoropolyethylene
### Paste; Topical
- SKIN EXPOSURE REDUCTION PASTE AGAINST CHEMICAL WARFARE AGENTS
  - US ARMY: 50%; 50%

## Pergolide Mesylate
### Tablet; Oral
- PERGOLIDE MESYLATE
  - IVAX SUB TEVA PHARMS: EQ 0.05MG BASE, EQ 0.25MG BASE
  - PAR PHARM: EQ 0.05MG BASE, EQ 0.25MG BASE
  - PERMAX: EQ 0.05MG BASE, EQ 0.25MG BASE
  - VALEANT PHARM INTL: EQ 0.05MG BASE

### Pereindopril Erbumine
### Tablet; Oral
- ACEON
  - + SYMPLEMED PHARMS LLC: 2MG, 4MG, 8MG

### TOBRAMYCIN

**Tobramycin Solution/Drops; Ophthalmic**
- **Manufacturer:** ALCON PHARMS LTD
  - Strength: 0.3%
  - NDC: A063176 001
  - Date: May 25, 1994
- **Manufacturer:** APOTEX INC
  - Strength: 0.3%
  - NDC: A065087 001
  - Date: Feb 25, 2002

**Tobramycin Sulfate; Injectable; Injection**
- **Manufacturer:** LILLY
  - Strength: 10mg BASE/ML
  - NDC: A062008 004
  - Date: Jan 04, 1986
  - Additional: EQ 40mg BASE/ML
  - NDC: A062006 001
  - Date: Apr 29, 1987
- **Manufacturer:** HOSPIRA
  - Strength: 10mg BASE/ML
  - NDC: A063080 001
  - Date: Apr 30, 1991
  - Additional: EQ 40mg BASE/ML
  - NDC: A063119 001
  - Date: Jul 29, 1991
- **Manufacturer:** IGI LABS INC
  - Strength: 10mg BASE/ML
  - NDC: A063120 001
  - Date: Jul 29, 1991
  - Additional: EQ 40mg BASE/ML
  - NDC: A063121 001
  - Date: Oct 31, 1994
- **Manufacturer:** APOTHECON
  - Strength: 10mg BASE/ML
  - NDC: A064021 001
  - Date: Nov 09, 1984
  - Additional: EQ 40mg BASE/ML
  - NDC: A064022 001
  - Date: May 29, 1991

**Tobramycin Sulfate (Pharmacy Bulk)**
- **Manufacturer:** HOSPIRA
  - Strength: 40mg BASE/ML
  - NDC: A063116 001
  - Date: May 18, 1992

### TOCAINE HYDROCHLORIDE

**Tocainide Hydrochloride; Tablet; Oral**
- **Manufacturer:** ASTRAZENECA
  - Strength: 400mg
  - NDC: N018257 001
  - Date: Nov 09, 1984
  - Additional: 600mg
  - NDC: N018257 002
  - Date: Nov 09, 1984

### TOLAZAMIDE

**Tolazamide; Tablet; Oral**
- **Manufacturer:** BARR
  - Strength:
    - 100mg
      - NDC: A070162 001
      - Date: Jan 14, 1986
    - 250mg
      - NDC: A070163 001
      - Date: Jan 14, 1986
    - 500mg
      - NDC: A070164 001
      - Date: Jan 14, 1986
  - Additional: 250mg
    - NDC: A070165 001
    - Date: Jan 10, 1986
  - Additional: 500mg

CORTI SONE ACETATE, corti sone acetate
CORTI SPORI N, baci traci N zinc
CORTI SPORI N, hydrocortisone acetate
CORTROSYN, cosyntropin
CORVERT, ibutilide fumarate
CORZIDE, bendroflumethiazide
COSMEGEN, dactinomycin
COSOPT, dorzolamide hydrochloride
COSOPT PF, dorzolamide hydrochloride
COSYNTROPIN, cosyntropin
COTELLIC, cobimetinib fumarate
COTEMPLA XR-ODT, methylphenidate
COUMADIN, warfarin sodium
COZAAR, losartan potassium
CREON, pancrelipase (amylase
CRESEMBA, isavuconazonium sulfate
CRIXIVAN, indinavir sulfate
CROMOLYN SODIUM, cromolyn sodium (OTC)
CROMOLYN SODIUM, cromolyn sodium
CROTAN, crotamiton
CRYSELLE, ethinyl estradiol
CUBICIN, daptomycin
CUBICIN RF, daptomycin
CUPRIC CHLORIDE IN PLASTIC CONTAINER, cupric chloride
CUPRIMINE, penicillamine
CUROSURF, poractant alfa
CUVPOSA, glycopyrrolate
CYANOCOBALAMIN, cyanocobalamin
CYANOKIT, hydroxocobalamin
CYCLAFEM 0.5/35, ethinyl estradiol
CYCLAFEM 1/35, ethinyl estradiol
CYCLAFEM 7/7/7, ethinyl estradiol
CYCLESSA, desogestrel
CYCLOBENZAPRI NE HYDROCHLORIDE, cyclobenzaprine hydrochloride
CYCLOGINYL, cyclopentolate hydrochloride
CYCLOMORI L, cyclopentolate hydrochloride
CYCLOPHOSPHAM DE, cyclophosphamide
CYCLOSET, bromocriptine mesylate
CYCLOSPORI NE, cyclosporine
CYKLOKAPRON, tranexamic acid
CYMBALTA, duloxetine hydrochloride
CYONAZ, ethinyl estradiol

- **H** represents the start of the list of products sorted alphabetically by applicant name starting with 'H'.
- Each applicant is followed by a list of product names they are associated with.
- The format is consistent throughout, listing both generic and, where applicable, trade names.

---

The table provides a structured overview of the products listed under the Applicant column, offering a clear and concise representation of the approved drug products in 39th edition of the Approved Drug Product List.

This Addendum identifies drugs that qualify under the Federal Food, Drug, and Cosmetic Act (FD&C Act) for periods of exclusivity and provides patent information that has been submitted to the Food and Drug Administration (FDA) concerning the listed drug products.

**Exclusivity**

During relevant exclusivity periods, certain abbreviated new drug applications (ANDAs) and applications described in Section 505(b)(2) of the FD&C Act (505(b)(2) applications) may not be submitted or approved as described below. This Addendum identifies drugs approved under section 505(c) of the FD&C Act that qualify under the Drug Price Competition and Patent Term Restoration Act of 1984 (Hatch-Waxman Amendments) for five-year and three-year periods of exclusivity pursuant to Section 505(c)(3)(E) and Section 505(j)(5)(F) and certain generic drugs approved under section 505(j) of the FD&C Act that have qualified for 180-day exclusivity pursuant to Section 505(j)(5)(B)(iv). This Addendum also identifies those drugs that have qualified for Orphan Drug Exclusivity pursuant to Section 527 of the FD&C Act, those drugs that have qualified for Pediatric Exclusivity pursuant to Section 505A of the FD&C Act, those drugs that have qualified for Generating Antibiotics Incentives Now (GAIN) exclusivity pursuant to Section 505E of the FD&C Act, and those generic drugs that have qualified for Competitive Generic Therapy (CGT) exclusivity pursuant to Section 505(j)(5)(B)(v) of the FD&C Act. This section is arranged in alphabetical order by active ingredient name followed by the proprietary name. Active ingredient headings for multiple ingredient fixed-combination drug products are arranged alphabetically.

For an explanation of the codes used in the Addendum, see the Patent and Exclusivity Terms Section. The exclusivity codes are general shorthand descriptions and do not necessarily identify, with specificity, the actual scope of exclusivity. Please note that beginning with the publication of the 38th edition of the Orange Book, individual descriptions of the protected use have been added to each Orphan Drug Exclusivity entry listed in the Orange Book. In previous editions of the Orange Book, Orphan Drug Exclusivity was not described with any specificity.

Exclusivity does not prevent the submission or approval of an application submitted pursuant to Section 505(b)(1) of the FD&C Act that would otherwise be blocked if it had been submitted pursuant to Section 505(b)(2) or 505(j), except in the case of Orphan Drug Exclusivity. Drugs approved under section 505(c) of the FD&C Act that may qualify for periods of exclusivity include:

(1) A new chemical entity, submitted in a new drug application under Section 505(b) of the FD&C Act and approved after September 24, 1984. A new chemical entity is an active ingredient that contains “no active ingredient (including any ester or salt of the active ingredient)” that has been approved by FDA in any other application submitted under Section 505(b) of the FD&C Act. An active ingredient would be eligible for 5-year exclusivity for a new chemical entity, provided that it meets the definition of a new chemical entity, regardless of whether that active ingredient is approved in a single-ingredient drug product, in a fixed-combination with another active ingredient that contains no other previously approved active moiety, or in a fixed-combination with
another active ingredient that contains a previously approved active moiety. No subsequent ANDA or 505(b)(2) application for a drug that contains the same active moiety may be submitted for a period of five years from the date of approval of the original application, except that such an application may be submitted after four years if it contains a certification that a patent claiming the drug is invalid or will not be infringed by the product for which approval is sought. See Sections 505(j)(5)(F)(ii) and 505(c)(3)(E)(ii) of the FD&C Act.

(2) A new drug application approved after September 24, 1984, for a drug product containing “an active ingredient (including any ester or salt of the active ingredient)” that has been approved in an earlier new drug application and that includes reports of new clinical investigations (other than bioavailability studies). Such investigations must have been conducted or sponsored by the applicant and must have been essential to approval of the application. If these requirements are met, a subsequent ANDA or a 505(b)(2) application may not be approved for the exclusivity-protected “conditions of approval of such drug” before the expiration of three years from the date of approval of the original application. See Sections 505(j)(5)(F)(iii) and 505(c)(3)(E)(iii) of the FD&C Act. If an NDA has exclusivity only for a new indication or use, this exclusivity generally does not preclude the approval of an ANDA or 505(b)(2) application for indications and uses not covered by the exclusivity, assuming the proposed drug product will be safe and effective as labeled.

(3) A supplement to a new drug application for a drug containing a previously approved “active ingredient (including any ester or salt of the active ingredient)” approved after September 24, 1984, that contains reports of new clinical investigations (other than bioavailability studies) essential to the approval of the supplement and conducted or sponsored by the applicant. See Sections 505(j)(5)(F)(iv) and 505(c)(3)(E)(iv) of the FD&C Act. A subsequent ANDA or 505(b)(2) application may not be approved for an exclusivity-protected change approved in the supplement for three years from the date of approval of the supplement.

**Patent Information**

The FD&C Act requires that patent information be filed with all newly submitted Section 505(b) drug applications. No NDA may be approved after September 24, 1984, without the submission of patent information to the Agency. Effective August 18, 2003, this information must be filed using Form FDA 3542a “Patent Information Submitted with the Filing of an NDA, Amendment or Supplement”.

Effective August 18, 2003, upon approval of an application, patent information for purposes of listing in the Orange Book must be submitted to the Agency within 30 days of the date of approval on Form FDA 3542 “Patent

---

1 For more information on exclusivity for fixed-dose combination drug products that include new chemical entities, see FDA’s guidance on New Chemical Entity Exclusivity Determinations for Certain Fixed-Dose Combination Drug Products at https://www.fda.gov/ucm/groups/fdagov-public/@fdagov-drugs-gen/documents/document/ucm386685.pdf.
Information Submitted Upon and After Approval of an NDA or Supplement.”² In November 2017, the Agency began including in the Orange Book the patent submission date (i.e., the date on which the FDA receives patent information from the NDA holder) for each newly listed patent to facilitate assessments of whether patent information is untimely filed with respect to a pending 505(b)(2) application or ANDA.³ Patent information on unapproved applications or on patents beyond the scope of the FD&C Act (i.e., process or manufacturing patents) will not be published. Form FDA 3542 will be the only form used for purposes of this publication.

The patents that FDA regards as covered by the statutory provisions for submission of patent information are: patents that claim the active ingredient(s); drug product patents, which include formulation/composition patents; method-of-use patents that claim one or more approved methods of using the approved drug product; and certain other patents as detailed in the regulations and on Form FDA 3542.⁴ This information, as provided by the sponsor on Form FDA 3542, will be published as described above. As of December 5, 2016, an NDA holder submitting information on a patent that claims both the drug substance and the drug product (and is eligible for listing on either basis) is required only to specify that the patent claims either the drug substance or the drug product.

A requirement for submission of patent information to FDA for certain old antibiotics became effective October 7, 2008 under Section 4(b)(1) of the QI Program Supplemental Funding Act (Public Law 110-379) (QI Act).

Upon approval of an NDA or at such time as patent information is updated for the drug product, FDA adds to the Orange Book the patent number, expiration date, type of patent, and submission date... The Addendum lists patent and exclusivity information up to January of the Edition year. The monthly Cumulative Supplements to the annual edition list patent and exclusivity information changes since the Annual Edition Addendum. Since all parts of this publication are subject to changes, additions, or deletions, the Orange Book, updated daily, should be consulted for the most recent patent and exclusivity information.

² Please note that the date of approval for an NDA for a drug for which FDA intends to recommend controls under the Controlled Substances Act is the later of the date on the approval letter for the NDA or the date of issuance of the interim final rule controlling the drug (see Section 505(x)(1) and (2) of the FD&C Act).
³ See 21 CFR 314.50(i)(4) and 314.94(a)(12)(vi). The submission date for patent information is determined in accordance with 21 CFR 314.53(d)(5).
⁴ See 21 CFR 314.53(c)(2)(ii)(N), (N)(2) and (N)(3).
