Picking up your prescription medicine today?
Remember:

- Use only as directed.
- Store the medicine out-of-reach and -sight of children and pets. A locked box, cabinet, or closet is best.
- When you no longer need a medicine, or it has expired, follow the disposal instructions on the label or patient information that came with the medicine. You can also contact your local government for the safest way to throw it away.
- Have questions? Ask your pharmacist.
